

Interchangeable DO, pH, and Conductivity probes

Using interchangeable probes, this versatile meter reads DO (Dissolved Oxygen), PH, conductivity, and temperature. The DO mode features simple one-button calibration to air and manual compensation for salinity and altitude. DO probe heads include built in membranes and screw on and off for easy replacement. 3-point pH calibration and 4-point conductivity calibration. The display simultaneously reads temperature in user selectable °C & °F, and all measurements are automatically temperature compensated. Review 99 data points readings directly on the large backlit LCD. The meter and all three probes come in a hard carrying case complete with, 2 spare DO probe heads, electrolyte, pH buffers, distilled water and 4 AAA batteries.

Dimensions: 6¾" × 2¾" × 1¼" (170 × 70 × 33 mm)

Kit Dimensions: 18.5" x 12" x 3.5"

Weight, Meter: 6.4 oz (181 g)

Weight, Kit: 4.6 lbs (2 kg)

Optional Accessories:

Replacement Conductivity/Salinity Probe - 850048C/S

Replacement DO Probe - 850048DO

Replacement pH Probe - 850048PH

Rubber Holster - 840089

Water Resistant Instrument Pouch - 840090

Bench-Top Tripod - 840092

Field Tripod - 840093
